

## MTAP Online Instructions

The MTAP is a self-report questionnaire about your abilities to perform a wide variety of physical tasks. There is no “right” or “wrong” answer; you rate your own ability. The purpose is to determine your ability based on your responses to the questions.

There are 50 items in the MTAP. Normally, approximately 5–7 minutes are required to complete the questionnaire.

Any computer that has access to the Internet may be used. If the connection speed to the Internet is exceptionally slow, 8–10 minutes may be required.

All results will be confidential and will not be provided to any person other than the EPIC staff. The data are encrypted as they are transmitted to EPIC.
